

Item No.: ST-PP 907

BS EN 13101:2002

Material: Polypropylene

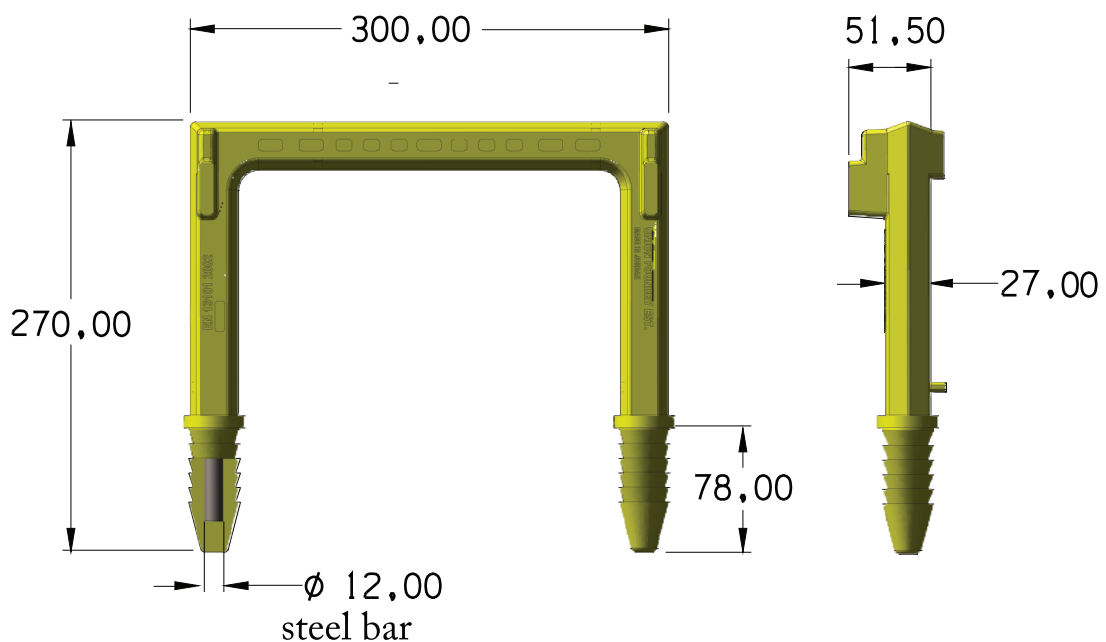

color : yellow

Polypropylene :-

It is a plastic material that offers a mixture of physical, chemical and thermal properties. Among the most important properties of this material are :-

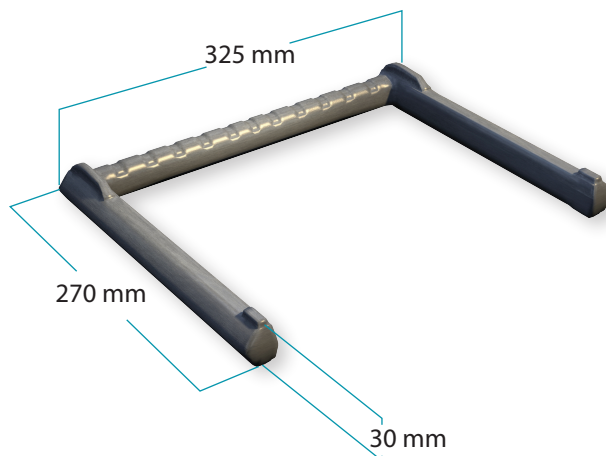

- 1 - High resistance to inorganic solvents
- 2 - Light in weight
- 3 - Low moisture absorption rate
- 4 - Heat resistance
- 5 - High acid resistance
- 6 - High tensile strength
- 7 - Shock resistance

Tread Width	Step Width	Step length	Load / KN
27mm	270mm	300mm	4.0

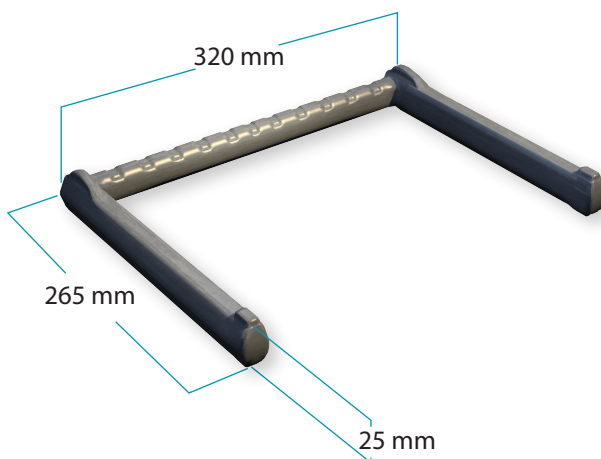

Item No.: ST-900

Material: Gray iron

Item No.: ST-901

Material: Gray iron

Item No.: ST-903

Material: Gray iron
